WINDOWS

Our factory existed since 1982. We have set ourselves the goal of producing high quality woodwork using wood as a raw material.

The precision of execution, in-depth technological knowledge and knowledge of modern machining methods is reflected in high quality products, with unique designs, which are an element of interior design.

All our products are made to order only, with the principles of functional and aesthetic design. Reliability of the workmanship and the reliability of the implementation guarantee the timely continuation of the construction or repair and assurance of assembly of particular elements of joinery construction at a predetermined time.

Wooden windows are impregnated and painted with the varnishes of German company Remmers in any color according to the RAL palette (or transparent), preserving the natural drawing of wooden fibers.

Construction: window and balcony doors of traditional and modern structure. Windows and balcony doors with a lift-and-slide system are available by individual order.

Shape: rectangular, square, arc, triangular, trapezoid, round, etc.

Dimensions: custom – by request. Seals: Qulon.

Glass Sets: Double - with option of installation of internal shutters with heat transfer coefficient $U = 1.0 \text{ W / m}^2\text{K}$

By request - safe, security class P4 (with appropriate hardware package)

Fittings: company G-U (Germany) with micro-ventilation function.

Material: profiles made of glued wood (pine, oak, larch or meranti) - well dried and deprived of knots and resin blisters.
